- Cube taps
- Power bars
- 600w dimmer
- USB Power Supplies
- V-Mount Batteries
- NPF Batteries
- LPEG Batteries

How do our rates work?

Our pricing is based on industry standard rates, but we can offer discounts to some projects that forward the creative career of the artist. Please reach out to us for more information if interested. We also offer discounted rates for multiple day shoots, here's how that works:

Time		Charge	
1	day	1	day
2	days	1.5	days
3	days	2	days
4	days	2.5	days
5	days	3	days
1	week	3.5	days

Examples

We only charge 1 day for weekend rentals, but it is always a 1 day charge. For example, a rental picked up on Friday and returned Monday would be a 1 day charge, but a rental picked up on Thursday and returned on Monday would be a 2 day charge, not a 1.5 day charge. A rental picked up on a Friday and returned the following Tuesday would be a 1.5 day charge. A rental picked up on a Tuesday and returned the following day would be a 1 day charge. An item picked up on a Tuesday and returned on Friday would be a 2 day charge. A rental picked up on a Wednesday and returned the following Wednesday would be a 1 week rental and be charged 3.5 days.

Rentals with a total value exceeding \$5000 require insurance.
